## Soviet Envoy Due To Leave Talks on Laos

Gromyko May Miss U.S. Plea for End to Propaganda Speeches

GENEVA (AP)—Soviet Foreign Minister Andrei Gromyko is expected to leave for Moscow today, probably without waiting to hear W. Averell Harriman's reply to his charge that the U.S. delegation is stalling the East-West conference on Laos.

The chief U.S. delegate was to appeal at today's session for an end to the month of propaganda speeches so the 14-nation parley can get down to details of setting up a unified, neutral Laos.

Harriman also was expected to deny that the United States has violated the cease-fire in the Southeast Asian nation, a charge leveled by Gromyko before turning over his work here to lower ranking Soviet diplomats.

The United States accuses the Communist-led Pathet Lao guerrillas of violating the cease-fire, which a U.S. military adviser in Laos said Wednesday "has been a joke for the past 10 days."

The Pathet Lao seized the mountain village of Padong June 6 and only Monday captured the government villages of Ban Hat Bo and Ban Pak Lat. All three are positions on the front north-east of Vientiane, the capital. Military observers said 1,000 rebel troops took part in the assault on the two villages.

A U.S. spokesman in Geneva minimized the importance of the latest cease-fire violations and said Harriman had no plans to complain about them at the conference. He said U.S. intelligence reports indicated the forces involved were smaller than news reports indicated and that U.S. military advisers were waiting to see how important the actions are.

The capture of Padong prompted the United States to lead a Western walkout of the conference last week. Western delegates returned to the conference Monday after Britain and the Soviet Union—as co-chairmen of the conference—appealed to all factions in Laos to observe the truce. But the West did not get the guarantees of an effective cease-fire it demanded.

The international control commission of India, Canada and Communist Poland reported, however, that the sporadic fighting does not indicate a widespread breakdown of the cease-fire. The commission's report was announced in New Delhi by Defense Minister V. K. Krishna Menon of India on his return from the Geneva meeting.

## These Burglars Must Have Been Hungry

Burglars who apparently were hungry broke into the Rhoads' fruit and vegetable stand about two miles southwest of here on Route 56 at about midnight.

Deputy Sheriff William Pontius, investigating the incident, reported today that two suspects are being checked concerning the burglary.

Deputy Pontius said approximately \$70 in meats, bread, fruit, vegetables and soft drinks were taken.

Robert J. Rhoads, owner of the market, said the small structure was thoroughly ransacked. He said several important bills and papers were missing.

PONTIUS said entry was made by breaking through a cooling screen on the south side of the building.

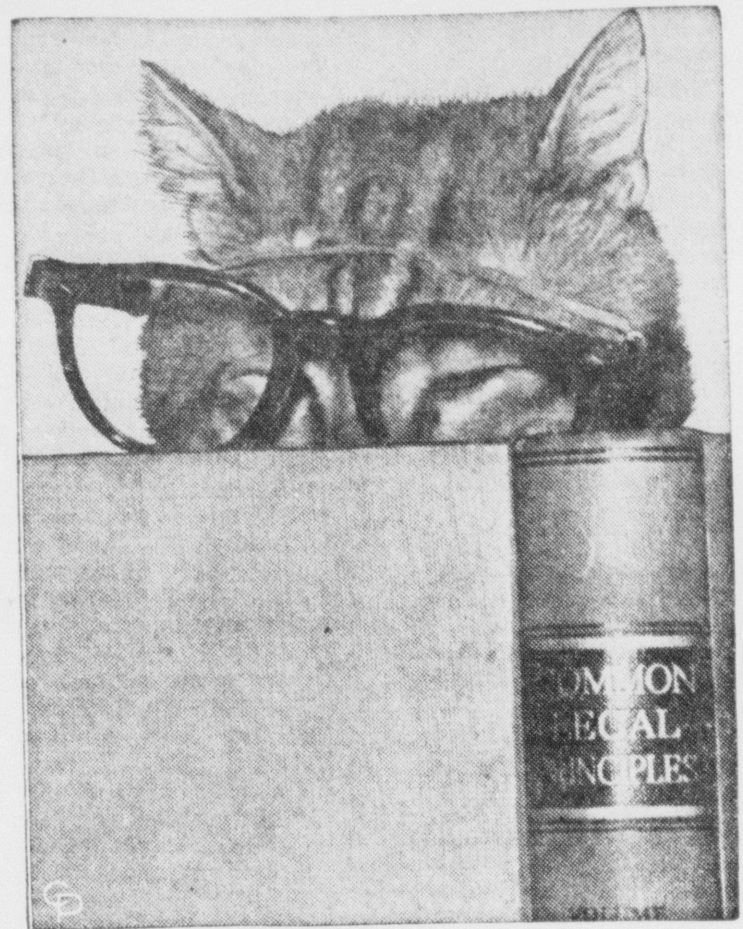

The burglary was reported shortly after midnight by the owner.

## Teays Valley Bid Awarded to Firm In Bellefontaine

Meeting in special session yesterday, the Teays Valley Board of Education approved contracts totaling \$1,283,769 for the construction of the new Teays Valley High School.

The structure, to be located on a 60-acre tract purchased by the board just north of Ashville fronting Route 752, will be built by the Knowlton Construction Co. Inc., of Bellefontaine.

The Knowlton firm submitted a low general contract base bid of \$882,822. Next lowest bidder was the Sever-Williams Co., Washington, D. C., with a base bid of \$934,000.

The actual total of the Knowlton contract, including alternate architectural specifications approved by

the board, will be \$910,122.

NATIONAL Corp., of Columbus, was awarded the plumbing contract on a total bid of \$100,190. Next lowest bidder was Campbell Plumbing Co., also of Columbus.

Electrical work in the new educational building will be done by Borroughs Electric Co., Columbus. The firm submitted a total bid of \$272,834. Next low bidder was Electric Power Equipment Co., also a Columbus firm.

The total construction cost was termed "an excellent one" by board members and County School Superintendent George McDowell. Architectural estimates of the cost had ranged as high as \$1,400,000.

McDowell noted that the \$1,283,769 does not include architect's fees for McLaughlin & Keil, Lima, who designed the structure. It also does not include the price of the land, installation of water or sewage facilities, certain athletic facilities or all parking area construction.

Generally the opinion was that the \$1,760,000 provided by passage of a bond issue by district voters last November will be adequate to meet all costs connected with the new building.

A computation showed that the structure would cost approximately \$10.85 per square foot, or 79.4 cents per cubic foot.

SEPTEMBER, 1962, has been set as the project date for occupancy of the building. Actual construction work such as digging, grading and the pouring of concrete footers is expected to get under way in about two weeks.

The board spent several hours discussing more than 40 alternate architectural proposals before letting the final contracts.

## Stickler Trial

Slated for Today

CINCINNATI (AP)—Leslie D. Stickler, Cincinnati attorney, was to go on trial today on the first of 15 indictments, six charging larceny by trick and nine for violations of state investment laws.

Common Pleas Judge Charles E. Weber was expected first to rule on four defense motions, including one for leave to withdraw Stickler's plea of not guilty, a demurrer to the indictments and two motions to quash.

Today's trial is concerned only with one indictment, Stickler's alleged dealings with Robert Stefani last January.

"The treatment of the USIA is certainly different from that given to me and my party," he said.

## Hungry Ants Are Blamed For Fouling Up Traffic

TULSA, Okla. (AP)—A busy intersection's traffic signal went on the blink for nearly four hours—ants found the wiring tasty.

Electronics Technician Bob Ogan explained: The insects apparently found a certain type of wiring insulation to their liking. They ate it off. Then some ants bridged between the wires and the metal control box case, shorting the signal.

## College Rules May Stiffen

Legislature Studies Tough Entrance Plan

COLUMBUS, Ohio (AP)—The day when state colleges open their doors to any graduate of an academically acceptable Ohio high school—no matter what his ability—may be drawing to a close.

Before the Ohio Senate today is a bill requiring Ohio's state colleges to establish, with the aid of the State Board of Education, standards to be met in high schools' college preparatory courses.

It also would require state colleges to set up admission procedures, including tests, for those applicants whose high school training is not deemed adequate.

At present, any 12th grade graduate of an acceptable Ohio high school is entitled to admission to any of Ohio's state colleges without examination. However, he may be required to make up academic deficiencies.

The bill being considered today is sponsored by State Sens. Ross Peppel, R-Allen; David M. Ferguson, R-Guernsey; and Donald C. Steiner, R-Stark.

If approved by the Senate, the bill must still go through a House committee, receive House approval and be considered by the governor.

While the Senate considers this and nine other bills, the House is taking up eight bills. Included is one recommended Tuesday by the House Finance Committee. It would increase the 700-man authorization of the Highway Patrol by 100 over the next two years and give each member of the patrol a step-up in pay.

## Boys State Ponders Issue Of Finances

ATHENS, Ohio (AP)—Money—need of it and ways to get more of it—was the chief topic during Wednesday's Boys State session. Gov. Dennis Gillespie of Youngstown presented the legislators with a mock state budget \$60 million larger than the 1960 request, but one which the 16-year-old executive says is patterned after Ohio's.

Gillespie said the larger allocations are mainly for public welfare, highways and natural resources. He pointed out, meanwhile, that he cut his own (imaginary) salary by \$2,774 while raising the lieutenant governor's by \$1,180.

The more than 1,200 citizens of the American Legion—sponsored school in self-government, however, began to find ways to make money.

The Conold County Bridge Corp., organized by Terry Hinks of Continental, "purchases" the Hocking River footbridge from the American Legion operators for \$100,000. Presumably the new corporation will make it a toll bridge. All of the boys use the facility to reach the assembly hall.

Another corporation, with Bryan Hiek of Parma as satutory agent, "bought" the cafeteria used by all the boys on the Ohio University campus for \$50,000.

The Boys' State Bar Association, in its second meeting, heard a talk on court procedure by Ohio Appeals Court Judge William C. Bryant of Columbus.

## U.S. Leaders See Success In Cuban Exchange Deal

WASHINGTON (AP)—Kennedy administration officials believe the tractors-for-prisoners trade—whether it succeeds or fails—may save the lives of 1,200 Cuban prisoner captives.

Nobody in Washington feels safe in predicting what action Prime Minister Fidel Castro will take next. But high government officials said today the belief here is that Castro cannot afford now to wheel out his firing squads.

All the evidence adds up to a world-wide propaganda linking for Castro as a result of his offer to trade the prisoners for 500 tractors. Administration officials feel the whole affair has been particularly effective in unmasking in Latin America Castro's pose as a benefactor of the downtrodden.

Castro's offer appears to have embarrassed the Communists at a time when they were exploiting the failure of the American-approved invasion. It may have contributed to Soviet Premier Khrushchev's description of Castro as unstable, and not a Communist in the Soviet leader's recent talks with Kennedy in Vienna.

Kennedy was said by close associates to have foreseen the possibilities of a propaganda coup when he took a hand in forming the Tractors for Freedom Committee, whose representatives are negotiating with the Castro government.

Beyond this, however, Kennedy was credited with believing from the beginning that the Castro offer might provide the opportunity to marshal world opinion to the point where the dictator could not afford to liquidate his enemies.

Any order of the Cuban leader for mass executions is seen here as likely to start the wheels moving toward eventual cooperative inter-American action against his regime.

If the lives of the prisoners are saved, the Kennedy administration believes it will have an effective answer to Republican contentions that the tractor trade would involve not only the payment of "blackmail" to Castro but possible violation of the Logan Act. This bars U. S. nationals from dealings with other governments under specified circumstances.

In Havana Wednesday afternoon, Castro surprised visiting U.S. newsmen by holding a lengthy press conference.

Relaxed and in good humor, Castro replied at length to all questions put to him. It was his

## U.S. Grand Jury Eyes Ratterman

LEXINGTON, Ky. (AP)—A federal grand jury, after reversing an earlier decision, today was to probe the alleged frame-up of George Ratterman.

U.S. Dist. Atty. Jean Auxier said Wednesday the reversed decision was a little unusual, but was the jury's own.

Ratterman, reform candidate for Campbell County (Newport) sheriff, claims he was drugged and framed when arrested in a Newport hotel room with striptease dancer Juanita Hodges.

The jury Monday passed investigation of the case because the Justice Department wanted to study it further, Auxier said.

first such meeting with newsmen in many months.

Castro lounged amid a circle of reporters in his usual olive green army fatigue uniform. He sucked on a cigar stub but never quite got it lit during the 2 hours of the first news conference.

The Cuban leader spoke fairly rapidly in Spanish. Two volunteer interpreters tried to keep going at the same time, correcting each other occasionally.

Later in the evening, after his final meeting with the American negotiators, the prime minister again put in an appearance with the newsmen.

And what did Castro talk about? Almost everything, including:

President Kennedy—He has no

intention of meeting Kennedy at this time, but he held open the possibility of a meeting later should U.S.-Cuban tensions ease. (There have been no overtures for such a meeting from Washington).

U.S.-Cuban Negotiations — It's up to the United States, not Cuba, to make the initiative on any negotiations to reconcile differences because Cuba is what Castro termed the offended party.

U.S. Prestige—Latin Americans are becoming increasingly hostile toward the United States.

Cuban Socialism—"The (Cuban) revolution is socialist. The state is not. It has the same organization as before the revolution began."

## 'Freedom Riders' Fail To Find Racial Trouble in Florida

By THE ASSOCIATED PRESS  
The first of three Florida-bound "Freedom Rider" groups arrived at Jacksonville early today and found conditions generally satisfactory.

The contingent of four Jewish rabbis, eight white Protestant ministers and six Negro ministers made a night trip from Sumter, S.C., where they tested South Carolina's citadel of racial separation without serious incident.

"All in all everything was satisfactory in Jacksonville," said the Rev. Perry A. Smith III, of North Brentwood, Md., Negro chairman of the group.

Another group of seven left Charleston, S. C., quietly enroute to Savannah, Ga., and Jacksonville, with the third group—also numbering seven—following within a couple of hours over the same route.

The riders were refused restaurant service in two small South Carolina towns Wednesday but encountered no difficulty in historic Charleston, one of the Deep South's most conservative cities.

Smith, a Baptist minister, said the riders did find "colored" and "white" signs on rest rooms at the Jacksonville bus station but all went into the white room without any trouble.

Police and plainclothes officers were at the station.

In a brief Georgia test, the 18 used the same rest rooms and ate at the same snack bar without interference in Savannah where in recent months there have been sporadic racial clashes. A white waitress served the group at the snack bar.

Joining the segregation-testing expedition were two Negro men, two Negro women and a white

## Wilmington Boy Drowns In Pond on Air Base

WILMINGTON, Ohio (AP)—A piggy-back trip across a small pond, on U.S. Air Force property behind the Clinton County Infirmary, cost the life of 16-year-old Ricky Frazier.

woman from the Daytona Beach, Fla., area. Their spokesman, the Rev. E. T. Tillman of Daytona Beach, said they will continue with the others to Tallahassee, then branch out to test segregation in south Georgia. He was unable at the moment to give the Georgia itinerary.

Tillman said he had been designated by the Florida branch of the National Association for the Advancement of Colored People to make several fact-finding trips and report to the Interstate Commerce Commission and other agencies on interstate travel facilities.

The 18 ministers are expected to fly back to New York later in the day from Tallahassee, the Florida capital.

The two parties of seven each spent Wednesday night in Charleston. Their plans were to spend Thursday night in Jacksonville, then perhaps combine for an extended ride in Florida, probably to Tampa.

The riders left Washington by Greyhound bus to make the first such test of Florida's segregation practices.

## Three Youths Apprehended

The apprehension of three juveniles at about 3:30 a. m. today ended several vandalism reports in the northwestern part of Pickaway and the southern part of Franklin counties.

Two 16-year-old boys and a 14-year-old girl were arrested by State Patrolman C. D. Wolfinger, Circleville Post No. 65. The apprehension was on Route 665 in Franklin County.

The youths were involved in a series of vandalism on the Circleville - London Northern Road Route 56, the patrolman said.

Wolfinger said the youths had broken several windows in the office at the government storage bins, west of Circleville. He said they also admitted stealing a fence battery from a farm and knocking down several mail boxes in their wild two-county escapade.

The officer said the youths hauled a couple of the mailboxes from an overpass on Route 665 onto Interstate 71, in Franklin County, causing a minor accident.

The youths, all of the Grove City area, have been turned over to the Franklin County Detention Home authorities.

## New Mexico Editor To Be Envoy to Swiss

WASHINGTON (AP)—Robert McKinney, editor and publisher of the Santa Fe New Mexican, is President Kennedy's choice for ambassador to Switzerland.

The nomination, made public Wednesday, is subject to Senate confirmation.

McKinney, 50, is a former assistant secretary of the interior and has served in the past as U.S. representative to the International Atomic Energy Agency in Vienna.

## Leader's Terms Are Far above U.S. Estimates

Negotiators Slated To Return to America By Plane Later Today

HAVANA (AP)—The U.S. tractors-for-prisoners team heads for Washington today after hearing Fidel Castro's latest demand—\$28 million worth of farm-type tractors in exchange for 1,167 captive invaders.

This amounts to about \$24,000 per prisoner.

The unofficial, four-man negotiating panel said it made no commitments to the Cuban prime minister; that it intended to lay the demand before the Tractors-for-Freedom Committee headed by Eleanor Roosevelt.

Whether the committee, in its drive for public subscriptions, could raise the kind of money involved in Castro's demand was uncertain. Other leaders of the drive, besides Mrs. Roosevelt, are Walter Reuther, head of the United Auto Workers and Dr. Milton Eisenhower.

The campaign for funds results from Castro's offhand offer of May 17.

Castro showed some new sides to his proposal Wednesday during five hours of negotiating sessions with the American team.

He said he would go along with the committee's offer to supply small farming tractors rather than the big construction tractors he originally sought. But he said the large tractors would have \$28 million plus transportation costs—so he expected that much money's worth of the smaller machines.

The Cuban leader indicated he would be agreeable to receiving 1,000 tractors one-half the size of the heavy models first demanded.

The monetary value was a stiff price in terms of the committee's earlier thinking. The fund raisers had been talking about raising \$2.5 million or so to buy 500 of the smaller types of tractors which they said should meet Castro's agricultural needs.

Small, general purpose farm tractors sell at from \$3,500 to \$6,000 in the United States. At such rates, the \$28 million figure set by Castro would purchase 4,700 to 8,000 tractors.

Castro also reduced somewhat the number of captives he said he could liberate upon receipt of the tractors. The original figure given, the committee was 1,214. Castro said this is now down to 1,167 due to some deaths, special trials he plans for some prisoners and other reasons.

Cuba's boss said he really would prefer to trade freedom of his captives for freedom of 1,200 persons in jail in the United States, Spain and some Latin American countries.

Asked if he had a specific list of the 1,200 prisoners abroad whom he wants liberated, Castro replied he had "no list, but we know there are many prisoners there because they are patriots."

As for the tractor deal, he said: "It's going well. It all depends on them (the American Committee) now."

## Law Enforcement Depends on Public

NEW YORK (AP)—Atty. Gen. Robert F. Kennedy said today the public was too concerned about "earning an extra buck" to become aroused about crime and corruption.

"Law enforcement is going to be as good as the people want it," he said.

Kennedy made the comment to newsmen on a three-hour tour of the United States Court House, meeting and shaking hands with staff members.

"We'll make some progress, but we're going to have organized crime and corruption in the United States as long as the attitude of the people remains what it is—acceptance of crime and corruption—and the most important thing is having bigger television sets, bigger autos and earning an extra buck—concentration on material goods."

## Stock Mart Is Reported Up Slightly

NEW YORK (AP)—A selective advance among industrials kept the stock market slightly higher in moderate trading early this afternoon.

The Associated Press average of 60 stocks at noon was up .20 at 248.40 with industrials up .90, rails off .20 and utilities off .20. Gains of fractions to about a point outnumbered losers in the same range.

Big Three motors, rubbers, most chemicals and some aircrafts and nonferrous metals helped keep the average on the upside. Utilities, tobaccos and rails edged lower.

Chrysler, up a point, was the best of the motors. General Motors was firm and Ford rose a fraction.

Korvette jumped about 2 points. J.W. Mays fell more than 3.

International Business Machines spurred 7 points. Zenith added well over a point.

The Dow Jones industrial average at noon was up .16 at 695.97. Corporate bonds were mixed. U.S. government bonds were slightly lower.

## Juveniles Put On Probation

Juvenile Court Judge Guy G. Cline, imposed probationary restrictions on two juveniles during a hearing yesterday. One received a suspended sentence.

The youths, ages 15 and 17, were connected with a series of recent burglaries of Circleville automobile agencies and a supply house.

The 15-year-old was given a two-year probation period and a suspended sentence to the Boys' Industrial School in Lancaster for his part in two cases of tire theft and one of breaking and entering.

The 17-year-old, connected with one case of tire theft, was placed on probation for two years.

Ralph Starkey, Pickaway County chief probation officer, investigated the complaints in cooperation with the Sheriff's Office.

## Six Treated At Hospital

Six persons were treated for lacerations and other injuries yesterday at Berger Hospital.

## Nixon California Drive Pushed

New GOP Chairman Says Party Sagging

WASHINGTON (AP) — National Chairman William E. Miller has added some heat to the fire Republicans seem to be building to get Richard M. Nixon into the 1962 California governor's race.

Miller tossed off the "personal guess" Tuesday that when the time comes the former vice president will decide he is the only man who can save the sagging California GOP by running against Democratic Gov. Edmund G. (Pat) Brown.

Sen. Barry Goldwater of Arizona, who heads the Republican Senatorial Campaign Committee and may become a contender for the party's 1964 presidential nomination, puts it another way. He says that Nixon either will have to run for state office or bow out of politics.

The opinions of Miller, Goldwater and Republicans of similar views are unlikely to be compelling with Nixon. The defeated 1960 Republican presidential nominee is a man who is known for making his own political decisions.

But Miller aptly sketched the dilemma when the national chairman noted in a National Press Club speech that Nixon had pledged himself to try to rebuild the party organization in California. If opinion polls indicate that only Nixon could beat Brown, Miller said there would be "tremendous pressure" on him to run.

Nixon has fended off this pressure while he has tested out the reaction to his preferred plan to keep himself in the political spotlight. This involves the kind of speeches he has been making at party rallies, plus private efforts to get some of his friends into contests for governor's offices.

This strategy seems designed to keep Nixon free from entangling state commitments so that he will be available for another presidential nomination in 1964.

## Judge Voids Retroactive Idle Claims

AKRON, Ohio (AP)—The Ninth District Court of Appeals Wednesday ruled unconstitutional legislation passed by the state General Assembly in 1959 authorizing retroactive payment on unemployment claims.

There are said to be 25,000 claims pending on the outcome of the suit brought by General Industries of Elyria. This would amount to more than \$2 million in unemployment claims throughout the state.

Defendant in the suit was Donald B. Leach, administrator of the Bureau of Unemployment Compensation.

The case involved the claim of Clarence H. Imhof of Elyria, who was laid off by General Industries in April, 1959, because of lack of work. He was awarded \$33 a week in unemployment compensation.

Imhof sued to claim increases he said were due to him under the new law. The company opposed the increase, which Imhof said amounted to \$9 a week or a total of \$180.

The BUC board of review felt the increase was justifiable. General Industries last year filed suit in Lorain County Common Pleas Court, and Judge John D. Pincura upheld the law. The company then appealed, and the three-judge appeals court reversed the lower court.

## The World Today

WASHINGTON (AP) — Lenient, legal or lethal.

Those are the choices for the West and Russia in settling their Berlin argument. The city will be steadily in the news now although no crisis is expected soon.

President Kennedy and Premier Khrushchev chilled each other's blood when they discussed West Berlin earlier this month. Each warned the other he meant business.

This city—whose ties are with West Germany—lies 110 miles inside Communist East Germany, which the West does not recognize as a legitimate government.

All supplies and people bound for West Berlin must pass through East Germany, which is under the Russian thumb. That's the main Russian weapon in this dispute.

Highly prosperous West Berlin—unlike the much less affluent East Berlin, which the Communists run—has become a pain to Russia.

It's a Western showcase, a Western outpost in the heart of a Communist land. And Khrushchev says it's used to create trouble.

It's also a harbor for Germans fleeing communism in East Germany. Stalin tried to put an end to

all this in 1948 by shutting off Western supplies to the city. President Truman wrecked that move with an airlift.

The West—meaning the United States, Britain and France—has troops in West Berlin and make this argument, based on agreements with Russia growing out of World War II.

It has a right to keep troops there and the land-water-rail-air routes—over which people and supplies for West Berlin travel through East Germany—must be kept open.

This is the West's legal argument. As of now it is standing on that.

But for years Khrushchev has been threatening that the wartime agreements are outdated and new solutions must be found. Last weekend he issued a statement on what he thinks must be done.

He said it's time for signing a peace treaty—meaning a treaty which has been pending since World War II—with the East German government. For the West to do this would mean it had caved in and recognized the East German government.

He said further that West Berlin—notice he didn't say Communist East Berlin—would be demilitarized with the signing of a

By James Marlow

peace treaty. In other words, the Allies would then lose any claim to a right to have troops in Berlin.

West Berlin, he said, would be considered a "free" and demilitarized city. But he said that if the United States balks, this will happen:

Russia will sign the peace treaty with East Germany and turn over to the East German Communists control of all the supply routes to West Berlin. Russia controls them now because the West says it won't do business with East Germany.

Once the East Germans controlled the routes, the Western powers would have to do business with them. In doing so, the West in effect, would be recognizing the East German government as legitimate, whether it did so formally or not.

This is what the Russians would call a legal settlement.

It's possible—when Khrushchev forces the issues as he is expected to, perhaps after next October—the two sides could work out a situation through compromises which neither is suggesting at this point.

Compromise of the two opposing positions would be a lenient solution.

But if Russia turns over control of West Berlin's access routes to the East Germans and the latter then shut off those routes in order to isolate Berlin, what would the West do?

In the first place, the East Germans wouldn't shut off the routes without a go-ahead from Russia because without Russian backing any attempt to close the routes against Allied military force would be an empty gesture.

But—once the routes were shut and the Allies decided to use force to batter their way through to Berlin—the Russians would have to use force to stop them or face world embarrassment.

This action and counter-action, which might mean war, would be the lethal solution.

Khrushchev, since he's talked so long and so much about getting Berlin out of his hair, must eventually take some action or appear to have backed down under Allied resistance.

Yet, if the Allies let the Russians and East Germans shut them off from West Berlin, their allies everywhere certainly would lose faith in them.

## Gower Champion Now Rated Success — Has an Ulcer, Too

HOLLYWOOD (AP) — Funny thing happened to Gower Champion the other night at a big Hollywood party.

"He was lionized and sought after," reports Marge Champion, "and I enjoyed it immensely. So did he."

While the Champions have always been popular with the Hollywood set, they now evoke that unmistakable respect that is accorded success.

Gower's success was known to everyone at the party—directing two smash Broadway hits in a row: "Bye Bye Birdie" and "Carnival." He nearly lost his health doing it.

"I had an ulcer," he said, grimacing. "Corny, isn't it?"

Gower had spent 10 intensive weeks getting "Carnival" to New York, then flew to San Francisco to drill the road company of "Bye, Bye, Birdie." He passed out in the midst of rehearsals. Rest, said the doctor, and resting Gower is.

"I won't go back to work until August, when I start preparing the film version of 'Bye, Bye, Birdie,'" he said.

Meanwhile he is learning to live with his ulcer. "The doctor said it was only 10 per cent smoking and overwork," Gower explained. "The other 90 per cent is mental, and that is something I've got to work on. I get en-

veloped in my work, and I can't understand why things go wrong."

Interest Rate Juggling

During recessions there are usually increased agreement with those who perennially advocate low interest rates. Actually, such concurrence really isn't necessary. The law of supply and demand functions well enough to ease the rate for borrowers, if any, during a slump.

The Federal Reserve Board, for one, has gone along with easement of rates. But now borrowing demands are increasing along with the signs of business recovery. As a matter of course, the interest trend will be upward as demand for funds grows. If the Reserve Board moves according to its traditional policy, it will "lean against the wind" to ward off inflationary threats.

But such a move would also be against President Kennedy's desire for continued

'Neutrality' Means Little

During prolonged communist stalling after Russia "accepted" the principle of a ceasefire, the Pathet Lao have gained control of half of Laos. There is no prospect that they will loosen their grip on what they hold. Laos has been cut in two. It was formerly so tiny that its national existence hardly seemed possible.

King Savang Vathana talks of a "government of national reconciliation", but that is a misnomer. A true government of national reconciliation would be a neutral government. This is what the king wants, but not what he will get. What will emerge, short of a communist coup, will be a coalition with the Pathet Lao, who are communists and anything but neutral.

Sometime in the future, there is to be a conference of 14 powers, which were supposed to have settled the status of Laos when most of them held a conference in 1954. Because the communists are now in a stronger military position, any agreement is sure to give them more in 1961

Spoil, Don't Nag, Husband

NEW YORK (AP)—Ireland's leading actress suggested today U.S. wives would enjoy life more if they spent more time spoiling their husbands instead of nagging them—or competing with them.

"The Irish woman takes it for granted that it's a man's world," said Siobhan McKenna, who has red hair, green eyes—and a serene temper.

"When I married, my grandmother told me, 'Marriage is a partnership. As in all partnerships, sometimes one must give in—and it might as well be the woman.'

"Irish women do—and I think they're the happier for it."

Ireland has one of the world's lowest divorce rates, and Miss McKenna believes one reason is the people there have a more realistic idea about the role of the sexes.

The Ghost of Hitler

It is easy for an advertising man to write a sensational advertisement. It takes no great skill. When one sees a lot of swastikas, it attracts attention immediately. Such a title as "Will There Be a Fourth Reich?" is fetching. Immediately one thinks of Hitler and gets excited.

So when in "The New York Times" Book Review, I saw such a combination of unpleasantness in an advertisement I looked further.

It seems that John Dornberg is the uncoverer of "Major General Edwin A. Walker's alleged attempt to indoctrinate American troops in the principles of the John Birch Society." So says the advertisement of the publisher, Mr. Dornberg is also advertised as the News Editor of the Overseas Weekly where General Walker was exposed. General Walker has now become a person in controversy, which only means that he is talked about pro and con.

So, we are back to the question as to what crime, felony or misdemeanor, General Walker committed. The man should be court-martialed if he committed a crime. If he is only a nuisance because of Left Wing embarrassment, the Defense Department should say that it is its policy to slay every officer who becomes unpalatable to the Left Wingers or to any other effective pressure group.

The advertisement of Dornberg's book goes on to say that "over 40,000 German youths belong to para-military groups." In front of this statement is a swastika, the emblem of the Nazi. Are we therefore to assume that the MacMillan Company knows that all the 49,000 are Nazis or is the swastika there only to attract attention?

Then the advertisement, also with a swastika as a forerunner. He says:

"...there may be an underground ring — operating with the tacit co-operation of German authorities — to help ex-Nazis escape trial and arrest."

This is an offensive statement about one of the nations most friendly to the United States. Are there Americans in Germany who are working clandestinely to overthrow the government of Chancellor Adenauer? Do we have an American Fifth Column in West Germany, as there was one to help Castro, as there were Americans in the Caribbean to destroy Trujillo, using the radio station "Dawn" to do the job?

Congress, incidentally, might investigate that station to discover what precisely it has done during the past year and what it has cost the American taxpayer and how offensive it is to our neighbors.

The advertisement in "The New York Times" also with a swastika announces that "as many as 685 anti-Semitic incidents have been officially recorded in one month alone." Anyone who has followed the news at all knows how actively Chancellor Adenauer has been fighting anti-Semitism in West Germany. It must be noted that the Communist movement is now universally anti-Semitic; that Soviet Russia is officially anti-Semitic, placing serious limitations upon all Jews. It is to be expected therefore that wherever Communists are at work, they will stimulate anti-Semitism if they can. In Germany, West and East, it is normal that vestiges of anti-Semitism should continue to exist. Such a colossal propagandistic effort as Hitler and Goebbels let loose upon the German people will not disappear in a generation. It will die slowly.

The question that is paramount is whether the West German Government is anti-Semitic. Chancellor Adenauer has proved that he and his government are not only not anti-Semitic but their relations with Israel have been excellent, as long as the West German Government battles against anti-Semitism those who are opposed to anti-Semitism.

downward pressure on interest rates all the time. In his address to Congress May 25, the President said it would be "clearly desirable" to point the direction of interest rates to lower levels.

Reserve Board Chairman Martin told the Joint Economic Committee of Congress that there is quite a bit of difference between what is "clearly desirable" and what is likely to happen in prosperous times.

Mr. Martin testified, as he has many times in the past, that the Federal Reserve System can do little to stop rates from going up. All it can do, he said, is to try to "moderate" the trend. Of course, this will not satisfy some congressmen who want rates to be artificially controlled, or "pegged", regardless of demand.

than they got in 1954.

If there is no agreement, in the pattern of what happened to the Korean conference held after the armistice, the communists will of course hold everything they have recently seized.

Thus, in the part of Laos they hold the communists expect to remain top dog. In the remainder of Laos, they expect to be strongly entrenched in the government. Thus they will rule all of one half and half of the other half of Laos, or about three-quarters.

But this is to be only a start. They will seek to communize adjacent South Vietnam and Thailand, through intervention from outside. The dismal prospect is that the West, by refusing to bow to the "inevitable", can save about one-fourth of Laos and strengthen the defenses of its Southeast Asia neighbors.

Things will get worse, President Kennedy said, before they start getting better. There can be no questions of that as far as Southeast Asia is concerned.

made all this money, it's too late for love.

"Mind you, I think Irish husbands might work a little harder. But they work to live, not live to work."

Miss McKenna is married to actor Dennis O'Dea and has a 12-year-old son. Although she has an outside career herself, she feels "the best life for a woman really" is one in which she concentrates on her marriage and home.

Miss McKenna recently completed the role of the Virgin Mary in MGM's \$10-million-plus film, "King of Kings." She is excited now over the prospect of starring in "Playboy of the Western World," the first movie in many years to be made in Ireland with an all-Irish cast and financed by Irish capital.

mitism must regard Adenauer as a friend. This has been the attitude of David Ben-Gurion, Israel's Prime Minister.

The question that arises is what can be the purpose of such an advertisement as I have described. Of course, principally the object is to sell a book. But the advertisement reads as though it were important to attack West Germany and to break down the regime of Chancellor Adenauer, what American can have that as a motive? What can be the purposes of such a statement? Only the Communists would be antagonistic to West Germany; only the Communists would want to give Chancellor Adenauer a bad reputation in the world.

Therefore, one wonders at all these swastika marks in an advertisement. Is the ghost of Hitler to be revived to confound us? And by whom?

"GOOD HEAVENS," a secretary cried to her boss who was dictating. "Every time you open your mouth, bubbles come out."

"It's nothing to worry about," soothed the boss. "While my wife was whipping up a spot of breakfast for me this morning, she failed to notice a little soap in the coffee maker."

The head of a big counter-eiffing ring inspected a new bill very carefully, then patted the engraver on the back. "Spike," he enthused, "You've outdone yourself. I'd like to show my appreciation. Go ahead and run off a couple of extra thousand dollar bills for yourself!"

A Manhattan police recruit of pure Scottish descent passed his physical test with flying colors, was then asked, "How would you go about dispersing a surging and unruly mob?"

"I'd try a trick that always works in Aberdeen," said the recruit cheerfully. "Doon there we just pass the hat around, and they shuffle off fast enough."

By BURTON H. FERN, M.D.

What is muscular dystrophy? What causes it? Can it be helped?

Tiny threads inside each cell pass muscular dystrophy down the family tree. The ailment lies hidden in these threads, ready to pounce when the time is ripe. But analysis of chemicals between muscle fibers can detect muscular dystrophy long before it strikes.

Dystrophy begins when muscle fibers suddenly weaken. They may waste and wither or swell and soften. Flabby fat fills the spaces between wasting fibers. That fat may bulge like powerful shoulder muscles. But these are only weak, rubbery imitations.

Unlike neuritis, which starts at the fingertips, dystrophy works its way down from the trunk. Identical muscles on opposite sides weaken about the same time.

The first hint of muscular weakness may come when the dystrophy - sufferer can't raise his hand above his shoulder or when weakened legs have to waddle to steady his gait. Winged shoulder blades may give him a hunched appearance.

A glassy-eyed stare without a flicker of emotion may mean muscular dystrophy of the face. Polio'd muscles flicker and twitch as they weaken; dystrophy muscles shrink silently, because nerves are unaffected.

Massage and exercise help dystrophy-sufferers build up their healthy muscles. In bed, electronic machines can exercise resting muscles.

Already weak on his pins, the dystrophy-sufferer has to cut calories. With lighter loads, legs last longer!

Doctors are still hunting for the magic cure to free these weakened wheel-chair victims. Meanwhile they're impatiently waiting for that inevitable scientific breakthrough that can pour new power into sick muscles!

Dr. Fern's mailbox is wide open for letters from readers. While he cannot undertake to answer individual letters, he will use readers' questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Fern in care of this newspaper.

The Business World

NEW YORK (AP)—The steel industry has more to worry about today than just the impact of summer heat and lethargy on its fledgling recovery.

Its bookkeeping departments are saying that steel prices have to rise because costs are going up, especially after a wage hike coming in October.

But its sales departments are busy handling a wave of price cutting.

New orders make production prospects for August look pretty

good, but July seems sure to slump as usual.

Foreign steel imports are a thorn in the side.

Domestic customers are demanding concessions and shopping around until they get them. And the recent increase in new orders for the steel mills hasn't changed this noticeably.

As if all this isn't confusing enough, Washington rumbles with vague threats of investigating any concerted price hiking moves.

A number of steel executives have been stressing the pressure for high prices. The talk coincided with a pickup in output after a long period of operating at half capacity.

Steel management says the price is needed to offset the scheduled increase in labor costs. But customers point out that wages went up last December, too, and prices didn't—steel demand and output were slim then, and competition keen.

The price rise, top executives stress, is also needed to combat thin profit margins, so that the industry will have funds for plant improvements, and expansion when needed.

But while all the talk has been going on, price cutting has been spreading among some steel products.

Two weeks ago quotations were slashed on stainless steel. Then the cost of pipes used by oil companies was cut. Now some companies are dropping their price lists on bars used to reinforce concrete. They say they must meet the lower prices of imports, an increasing competition in a number of steel products.

These above board instances of price cutting following a period of unpublicized price shading of another sort. Customers have been getting some steel products below list prices of the major companies by shopping around—whether from small domestic mills eager to get or maintain full production, or from the foreign mills that can deliver specific steel products here at well below the official domestic prices.

Some customers have been getting concessions by inducing mills to give them better grade steel priced as lower grade. Others have cut their production costs by finding ways to make lower grade steel do.

# This Is What District Vets Want To Know

Questions of interest to ex-service men should be given to Pickaway County Veterans Service Officer, James Shea. His office is in the basement of the Courthouse.

Q-I am a World War I veteran, receiving total non-service connected pension. In the mail recently, I received my Kentucky bonus. Is this bonus considered as income for pension purposes?

A-The bonus considered as income for pension purposes if you are receiving your pension under the new Pension law which went into effect July 1, 1960. If you are receiving pension under the old law, the bonus is not considered as income.

Q-I am the orphan of a World War II veteran, who was killed in the Service. I am 23 years old and married. I will be 24 years old this month. Am I eligible for schooling under the War Orphans Education Assistance program?

A-The fact that you are married does not disqualify you from training under the War Orphans Education Assistance program, but the fact that you will be 24 years old next month does disqualify you. Under the terms of this law, education cannot be granted beyond the 23rd birthday.

Q-I am a Spanish-American War veteran. Can I get dental treatment from the VA without being in a VA hospital?

A-You can. Spanish American War veterans may receive dental treatment through the VA outpatient program as needed.

Q-I have a nephew that was killed while in the service and was buried overseas. Can I find out from the Veterans Administration where he is buried?

A-No, you cannot receive this information from the VA. Your question should be directed to the branch of the armed forces in which your nephew served. They will supply you with the information desired.

Q-I am on active duty in the Army with a part-time job when off duty. If I am disabled or killed on that job, am I or my dependents eligible for compensation from the VA?

A-If you should be killed accidentally, thru no fault of your own, your dependents would be eligible for death compensation under the present law. If you should be disabled, you would become eligible for compensation after your separation from the service.

CINCINNATI (AP)—Charles R. Mulcahy, paper box firm executive, waived a hearing Wednesday on a charge of first-degree murder in the knifing death of his wife and was bound to the grand jury without bond.

Mulcahy, 45, was charged also with cutting to kill in the stabbing of John Waggoner, 34, Lacrosse, Wis., businessman who was in poor condition at St. Mary's Hospital.

Mulcahy was accused of killing his estranged wife, Dorothy, 41, after she returned to her old job of singing in a night spot.

## Excise Tax Rate Extension OK

WASHINGTON (AP) — The Senate Finance Committee today approved without change President Kennedy's bill to extend present corporation and major excise tax rates for another year.

The extension bill would continue for another year taxes yielding \$3.66 billion of annual federal revenue. It would keep the corporate income tax rate at 52 per cent and maintain Korean War rates on excises applying to liquor, beer, wine, cigarettes, cars and auto parts and accessories, local telephones and travel.

The rates will drop July 1 if the measure is not enacted by then.

## Flood Control Survey in Ohio Is Sought

WASHINGTON (AP)—A House appropriations subcommittee has been urged to approve funds for flood control surveys and to repair flood damage on the Licking and Mohican rivers.

"We have not yet scratched the surface in flood control projects," Rep. John M. Ashbrook, R-Ohio, told the subcommittee Tuesday in asking approval of \$306,000 for repairing the channels of Raccoon Creek, North Fork and Licking River, all damaged in a 1959 flood.

He said the work would involve 1,500 feet of channel widening and deepening, and one mile of earth levee and pumping stations to dispose of sewage and drainage. He said the city of Newark, Ohio, had obtained rights of way for the project after the 1959 flood "pointed up the necessity of extension of the levee."

Ashbrook also asked approval of \$35,000 to continue a flood control study on the Licking River and \$15,000 for a similar study on the Clear Fork and Rocky Fork of the Mohican River.

The projects are included in President Kennedy's budget and no increase in funds was asked.

# Miss Wagner, Mr. Steele Exchange Vows in Dayton

MRS. DAVID LEE STEELE

Miss Sue Anne Wagner, daughter of Mr. and Mrs. George B. Wagner, Kettering, and Mr. David Lee Steele, son of Mr. and Mrs. J. S. Steele, 378 E. Franklin St., were united in marriage at 2:30 p. m. Saturday in the Euclid Ave. EUB Church, Dayton.

The double ring ceremony was performed by the Rev. Emerson D. Bragg.

The bride, escorted to the altar by her father, wore a silk organza gown with a sweeping neckline and short sleeves. The bodice of her gown was beautifully appliqued with embroidered Alencon lace motifs.

Her bouffant skirt swept into a chapel length train. She wore a fingertip veil of imported silk illusion caught delicately in a hair-braid bow.

The bridal bouquet was composed of cascading white roses enfolded in trails of ivy and stephanotis.

Miss Ruth Wagner, sister of the bride, was maid of honor for the ceremony. Barbara Stanfield, Ashland, and Sarah Wagner served as bridesmaids.

Lynne and Gail Wagner, also sisters of the bride, were the junior brides. Beverly Yost, of Phillipsburg, was the flower girl.

Dick Greeno, Circleville, accompanied the groom as best man. Ushers for the ceremony were Jack Pontious, Bob Wellington and George Kerr, all of Circleville.

A reception for the wedding guests was held immediately following the ceremony in the church social rooms.

The bride and groom plan a wedding trip through the southern United States. They will make their home in Circleville when they return.

## Dear Abby...

By Abigail VanBuren

### She Asked for It—and Got It!

DEAR ABBY: Last evening we had some couples in. One of the women said, "Did you hear that Barbara and Bill are getting a divorce?" Everyone expressed surprise and said they hadn't heard it.

Then this woman said, "Don't you want to hear the details?" And my husband spoke up and said, "Not particularly. You can't believe half of what you hear these days."

### Caplinger, Rathburn Vows Set for July

The Ashville Methodist Church will be the scene for the open Church wedding 2:30 p. m. July 16, uniting in marriage Miss Shirley Irene Caplinger and Mrs. Donald Allen Rathburn.

The bride - elect is the daughter of Mr. and Mrs. Frank Oakes Route 2, Ashville.

Mr. Rathburn is the son of Mr. and Mrs. Malcom Rathburn, Ashville.

The bride - elect has chosen her attendants, her sister, Miss Linda Caplinger, as maid of honor and her cousin, Joyce Caplinger and Miss Nancy Harris as bridesmaids. Little Miss Kim Glick will be flower girl.

### University Women Meet in Laurelville

The Literature Group of University Women met recently in the home of Miss Helen Mettler, Laurelville.

It was announced that the September meeting will be in the home of Mrs. Robert Doherty, N. Pickaway St. The discussion leader will be Mrs. Robert Hendricks. Victor Hugo's "Les Miserables" will be the topic of discussion.

The following is a list of the books to be read for the coming club year: October—Stone's "Love Is Eternal"; November—"For Two Cents Plain" by Golden; January—"Act One", the life of Mass Hart;

February—Sherwood Anderson's "Winesburg Ohio"; March—Homer's "Iliad"; April—"Waste Makers" by Packard; and May—"Cry, Te Beloved Country" by Patton.

### Country Club Plans Father's Day Brunch

A Father's Day Brunch is planned from 11:30 a. m. to 1 p. m. Sunday in the Pickaway Country Club.

Reservations should be made by tomorrow by contacting Mrs. John Grincewich, GR 4-4482, Mrs. Bud Christopher, GR 4-5350 or by calling the clubhouse.

Suddenly the room became as quiet as a tomb, and then someone changed the subject.

Don't you think that since my husband was the host he was 100 per cent wrong to embarrass a guest who only wanted to make conversation?

**HIS WIFE**  
DEAR WIFE: Folks who feast on the domestic scraps of others deserve to be embarrassed. Good for your husband. admire him.

DEAR ABBY: My neighbor keeps taking my flowers without asking me. How can I tactfully tell her to stop?

**GOOD NEIGHBOR**  
DEAR NEIGHBOR: Gather together a nice little bouquet and take it to your neighbor. In parting say, "—And any time you want a few flowers, please ASK me." (She'll get the scent.)

DEAR ABBY: I have been married for over 25 years to a man who "loves people," but he forgets that I am one of the "people." He loves to tell jokes, but, Abby, I can't exactly split my sides laughing at jokes I heard 20 years ago.

When he was sick in the hospital I sat by his bed for hours, and he never had a word for me, but as soon as a nurse walked in he started acting cute and cutting up.

He is always the life of the party, especially when there are widows and divorcees around. He claims they are "lonesome," but he doesn't care if I am lonesome. I have the feeling he is still looking. Is he?

**COMEDIAN'S WIFE**  
DEAR WIFE: Your husband is "looking" all right. Looking for someone to appreciate him. Every woman who is married to a "comedian" has heard his jokes before, but the smart ones laugh anyway. Do the best you can with him. Honey, Boorish as he may be, the guy in your hand is still better than the one in the bush.

## Mother and Daughter Tea Held at Cedar Hill Club

Seventy-five mothers and daughters were present at the 12th Annual Mother - Daughter Tea which held at the Cedar Hill Community Club. The Tea was given by the women of the Christian Service Guild of the Cedar Hill EUB Church.

Welcoming the group was Mrs. Merle Presler. A response was given by Mrs. Glenn Allen of the WSW of the church.

Devotions appropriate for Mother's Day were read by Mrs. Charles Hendrick, followed by prayer.

Mrs. Herman Kull announced the program as follows:

Six young men of the Guild who gave a verse in a Mother's Day exercise were Dwight Presler, Robert Archer, Bruce Presler, Scott Huffer, Douglas Kull, and David Archer. A piano solo by Dennis Kull followed.

Recitations were given by Carol Berry and Deborah Archer. Vocal selections were presented by Candy Huffer and Glenna and Shirley Hendrick.

One of the guests for the tea, Mrs. Erma Hedges, recited two selections, "The Patchwork Quilt" and "Saint Peter at the Gate". She also read "A Parable for Mothers".

The other guest entertainers for the afternoon were the Rev. Max Harvey and Mrs. Harvey. Mrs. Harvey played the bells and the piano.

Mrs. Harvey accompanied her husband on the piano as he played the saw, the violin and concluded with a vocal duet. Songs heard included "Make Me A Blessing Today", "In the Garden", "Tell Mother I'll Be There" and "It Took a Miracle".

Mrs. Dessell Heffner read a Mother's Day selection. Flowers were presented by Mrs. Mildred Archer to the oldest mother present—Mrs. Anna Hedges, 88. Mrs. Robert Garrett Sr. received a flower for having the largest number of grandchildren.

Following the group singing "God Be With You", Mrs. Fred Brown presented tea music.

Decorations and arrangements for the afternoon were prepared by Mrs. Herman Kull, Mrs. Merle Presler, Mrs. Charles Hendrick, Mrs. Hugh Huffer, Mrs. Paul Berry, Mrs. Dessell Heffner, Mrs. Franklin Gillian, Mrs. Glen Hendrick, Mrs. Fred Brown and Mrs. Melvin Archer.

## Feed Grain Operation Is Explained

Each farmer participating in the 1961 Feed Grain program has a permitted acreage of corn and grain sorghum for the current crop season, it was announced here today.

Marvin G. Steely of the local Agricultural Stabilization and Conservation office said the program is a plan in which farmers agree to divert part of their corn and grain sorghum acreage to conservation use.

The permitted acreage of corn and grain sorghum is the farm base for corn and grain sorghum minus the number of acres a farmer agreed to divert from production of these two crops in 1951.

Steely said the permitted acreage is important if a farmer intends to earn the payment he expected at the time he signed up. Now is a good time to check the acreages of crops for harvest to see if the permitted acreage has been exceeded, he added.

STEELY recommends that each farmer taking part in the feed grain program also carefully review his records to be sure he is diverting the number of acres he intends to take out of production.

The acreage diverted from production must be devoted to conservation uses. The conservation use of the diverted acres also must be in addition to the average number of acres on the farm used for conservation during 1959 and 1960.

## 11-Year-Old White House Limousine Is Replaced by Ford

WASHINGTON (AP)—President Kennedy got a new limousine today with a rear seat that can be raised, and top styles for all types of weather.

The President can ride in the car in open air, either sitting or standing. And he can ride under a metal roof, a transparent plastic roof, or a convertible top.

The rear seat, which can be raised 10½ inches from its normal position, permits the President to be seen easily even though seated.

The specially built Continental replaces the 11-year-old "bubble-top" Lincoln which has been used by more than 100,000 miles in the United States and abroad. The Ford Motor Co. declined to estimate the cost of its one-of-a-kind limousine.

It will cost the taxpayers only \$500 a year, however, under a lease arrangement.

## Westland Hinted For GOP Position

WASHINGTON (AP) — Rep. Jack Westland of Washington appears to be a probable compromise choice to head the Republican Congressional Committee.

The group, sometimes called the House Republican Campaign Committee, has the job of raising funds and seeking to elect party members to the House.

In the last campaign it was headed by Rep. William E. Miller of New York, who has now become chairman of the Republican National Committee.

## Some Stores Offer Credit Cards to Even 12-Year-Olds

NEW YORK (AP)—When a 12-year-old can saunter into a store and put a lollipop or a baseball bat on his own charge account, is that carrying credit a little too far?

Or is it teaching him responsibility, making him a debt-conscious small edition of pop?

Whether it's robbing the cradle or performing community service, some stores in some states make charge accounts available to children as young as 12.

"This phenomenal growth of teen-age credit is one aspect of the consumer credit explosion," says Hillel Black, who came across on-the-cuff plans for junior during research for his book "Buy Now, Pay Later."

"Kids get allowances from their parents, have parttime jobs — and it's all their money to spend the way they want to. The teen-age market now is figured at \$10 billion a year; by 1967 it's expected to rise to \$15 billion," Black says.

But there are certain risks in selling debt to children, he points out. Nearly all adults have a credit history, but kids don't. How do you decide which are good risks?

"A credit manager in one Pennsylvania store told me that if parents show a good credit record, he'll take a chance on their offspring," says Black. "If the parents' record is bad, he may reject the child."

"He went on to say that although he doesn't tell the child why he is being rejected, the youngster always knows it's because his parents owe a lot of money. I seriously question whether this is a healthy thing for children, with the credit sins of the fathers being handed down to the next generation."

There's no doubt, of course, that most adults have more than a nodding acquaintance with buying on time. The typical American family today owes \$5,000, a 413 per cent climb in 15 years. "I don't think credit itself is bad," Hill says. "It's necessary to our way of life and our economy. It supplies jobs, it allows low-income people to bring up their standard of living."

"But my objection is that the American consumer is too often deceived, and in some instances outrageously swindled. He doesn't know, can't figure out and is rarely told what he is paying for debt. There's no comparison shopping, no way of finding out what credit costs in terms of simple annual interest."

"For the teen-ager, this means he's never taught the true cost of credit—which can run up to 80 per cent interest charges on a \$25 account."

## Wrights Aim To Include Plants at Moving Time

By MRS. ELIZABETH JONES

Moving is a chore at best. But when a dedicated amateur gardener undertakes to move this complicated thing.

George Wright, retired Bexley business man who has returned to Circleville where he was once associated with Farm Bureau operations, found moving no simple feat.

For he brought along with him starts of many of his most beloved plants and he transported a coldframe with an entire crop of spring pansies.

Mrs. Wright was a Sharpe and grew up in Pickaway Twp. She knows many people in the vicinity. So their new home at 502 Springhollow Road is a matter of returning to old scenes and friends.

AND the plant material for the new home will be from cuttings of old plants they had in Bexley.

The yard at 502 Springhollow Road is much smaller than the Wright's Bexley yard and this energetic gardener will soon have plenty of plant material for his

## Ed Ingram Keeps Careful Iris File

Ed Ingram, Stringtown resident, has hundreds of varieties of iris and he manages to keep them all straight. Most of them are labeled. Ed tends the iris himself so he is mighty careful about the labels. They are aluminum labels with letters in relief so that rain and weather cannot fade the names.

In addition to his careful labeling, Ed has a file for iris. On the file cards he has the name of each iris. Then each year he notes the performance of each variety.

According to Ingram, irises perform differently in different years. This has been an excellent iris year.

SOME YEARS certain irises have few blooms. Some years they are taller than ordinary.

Most irises are constant when it comes to color, texture and branch habit.

It's something to grow a fine garden of iris, and it's something else to keep them correctly labeled. But Ed Ingram's the man who grows and knows good iris. In fact the iris in Ingram's garden would have a difficult time getting lost.

## Mrs. Long Finishes Art Course

Area Artist Remains Independent, Never Likes To Copy Work

Recently we received a press release to the effect that Mrs. Blanche Long of Kingston had been graduated from the Famous Artists Schools of Westport Conn.

Mrs. Long specialized in fine arts painting during her three-year course with this home study school.

This is the same school where President Eisenhower and Winston Churchill studied. On the faculty are distinguished artists like Norman Rockwell, Ben Shahn and Dong Kingman.

We asked immediately, when we talked to Mrs. Long, if she had ever done flower pictures. She has one painting of pink roses in a blue bowl and several landscapes.

MRS. LONG said she was very independent and set up her own models and chose her own landscape and "never copied."

Most of all she likes portrait painting and has completed a picture of her grandfather from a photograph taken in 1840.

Mrs. Long has done one religious portrait. After studying Rembrandt's, Hoffman's, Christy's and Salsman's portraits of Christ, Mrs. Long did her own interpretation.

She is not interested in modern art.

Mrs. Long once dabbled in water colors. She even had a lesson or two. But she has had no other training.

Mrs. Long, incidentally, is 82.

## Solon Urges U.S. To Prepare Tests

WASHINGTON (AP) — The chairman of the Joint Congressional Atomic Committee said today the United States should get ready to resume underground nuclear testing while continuing negotiations with the Soviet Union.

Rep. Chet Holifield, D-Calif., said in a speech prepared for House delivery that Moscow's unyielding attitude on test ban controls demanded a reappraisal of American policy and action based on the assumption that the Soviets "have tested, or will test, if they think they can get away with it."

Holifield said he was "hopeful" that the President will arrive at a wise judgement on this important matter within a few weeks.

ling rebuds. Months later he was reading a garden magazine. He laughingly showed his wife where some other guy besides himself was crazy enough to nurture 40 seedling red buds. He turned the page to see his own name signed to the article.

Wright is an ingenious gardener. He had constructed an interesting frame of chicken wire which he could place over plants and shield them from frost or hot sun. Under this he had pyroantha cuttings.

WRIGHT has devised a seeder for planting seeds. It is curved metal shaped a little like a potato peeler.

The packet of seeds is emptied into this seeder and the seeds tapped out. Seeds can be seen and planted more sparsely with this gadget. He once took orders from interested gardening friends and presented them with the seeding device.

Wright is undoubtedly a dedicated amateur gardener. Even with a metal disc in his hip which makes bending and stooping something of a task here's a gardener who loves his work and accepts the challenge of gardening with zeal and pleasure.

Nor is Mrs. Wright far behind. When a friend, Mrs. Paul Johnson, stopped by with some peonies from her garden, Mrs. Wright went right along to the flower show with her.

Mrs. Johnson had been headed for the show in the family truck. But that did not stop Mrs. Wright from joining the Johnson's at the flower show. She hopped right in the truck and went along.

## Garden Gossip

Loring Hill and the Mt. Pleasant Garden Club are by-passing their annual Flag Day breakfast this year.

The Hill Garden is a real drawing card for gardeners the county over. It is in reality, a private arboretum. No other garden that we know of has the wealth of plant material to be found here.

At last a lavender rose has put in its appearance at the Pickaway County Garden Club Flower Show—which is always held at rose time. The rose belongs to Mrs. E. E. Porter. It has weathered several winters in her garden. It's a Sterling Silver.

Because Sterling Silver never makes it through the winter out here on the farm we have always regarded it as a delicate rose.

THE Dwight Dorns are watching their newly planted lawn with interest and eagerness and seem surprised that the grass is actually growing. They live in a new house on Avon Drive. The lawn is getting such a good start that before too long they'll have to invest in a lawnmower.

We caught just a glimpse of the pink climbing rose on the Richard Penn home. We mean to find out what kind of a rose it is because it seemed especially satiny and of a delightful pink color.

The iris and peonies will be somewhat spent this next week but now's the time to garden-hop and see the roses. Roses are late but they seem to be putting on a fine performance.

I doubt if it compares with 1960. Now that was a real rose year.

The Marion Hupps at Whisler have a rose acacia that is a shapely little shrub. These lovely pink trees have a root system that travels underground and sprouts here and there. So gardeners with rose acacia almost always have one or two to give away.

Whenever a plant has this type of root system you can be sure its owner will "share" and gladly. But

when a plant has a single tap root that goes down deep don't disturb it.

VIRGIE Van Camp is a regular exhibitor at the Pickaway Garden Club spring flower show. But no entries from Virgie this year. She's no doubt too preoccupied with her horse "I'm It".

We have always maintained that showing flowers is every bit as exciting as racing horses. But in Virgie's case it's evident that horses have the edge.

Mrs. Emmitt Barnhart's attractive containers in which she displayed her flowers were some of her own work in ceramics. So was the very lovely madonna she used in one class.

There's no keeping with garden club ladies. It's not enough to grow and show their flowers. Now many of them are making their own containers.

Mrs. Charles Thompson came to my rescue at the flower show with paper clips. I was desperate. I did not have a way to fasten my back- (Continued on Page 9)

## Former Saltcreek Student Now in Dominican Republic

The Dominican Republic may be a hot spot of revolution and political unrest right now, but according to Mr. and Mrs. Francesco Moreno who live in Ciudad Trujillo the climate is ideal otherwise.

Moreno is assistant superintendent of a mine operated by the Aluminum Company of America. Residents of Saltcreek Twp. will remember him as "Pancho" when he attended Saltcreek School in 1947-1948.

Mr. and Mrs. Moreno say the temperature varies from 75 to 80 degrees the year around. And there's always a breeze. The sun is bright, the air is clear and the sea is blue.

What about vegetation? The vegetation is described as desert-like with plenty of cacti, low scrubby bushes and gray-looking colorless trees.

THE TREES "green-up" after

one of the rare rains. Wild cucumber vines form a carpet of gold with their yellow blossoms.

THE MINE where Moreno works is located just up the mountain from Cabo Rojo which is only a few miles from the Haitian border. The vegetation grows more dense in the mountainous region. Mountain forests are all pine.

A few varieties of orchids grow wild. These are small but very beautiful, according to the Morenos.

In Ciudad Trujillo there is a profusion of bougainvillea, probably the most colorful of all vines. Red hibiscus is widely grown and the poinsettias which grow to five and six feet are a blade of red when in bloom. Bananas, coconuts, mango and all varieties of palms grow throughout the city. The Morenos have a daughter six-months-old.

## Let me show you how to get better roses, more continuous bloom

With roses, the surprising secret of more blooms is—more leaves! Now—with the new Scotts Rose Program—it's so easy to keep foliage strong and healthy, even a beginner enjoys success.

This amazing applicator is the key. It's called the Scotts Zephyr, and it's designed to apply new HAZE—Scotts all-in-one protection against insects and disease.

The HAZE container fits snugly in the Zephyr. Nothing to mix, measure, fill or spill. To apply, just point the deflector at the base of the rose bushes, turn the crank gently, and walk along the bed. An atomized dry mist envelops the plant—depositing a nearly invisible HAZE film on both tops and undersides of the leaves.

Come see and save. You'll find these new Scotts Rose Program products at our big SUCCESS WITH ROSES display.

Introductory offer saves you \$5.00.

# Rose Contest Set June 21

**Annual Tournament Is Exciting Event**

One of the most exciting events in the field of flower arrangement art is the annual Sterling Bowl Tournament held in the Jackson and Perkins Rose Gardens in Newark, N. Y.

This is the only flower arranging competition on a national level and it attracts great interest throughout the flower world.

In January names of top flight arrangers are submitted by the garden club presidents of the 50 states. Later 14 names are decided upon, all selected from the list sent in by the presidents.

These 14 contestants represent the seven geographical areas which make up the United States.

THE tournament is co-sponsored by the Jackson and Perkins Co. and the Sterling Silversmiths Guild of America.

The name of Mrs. Zella Wyatt Schulke, 9304 Fitzwater Road, Brecksville, was submitted for the State of Ohio. Mrs. Schulke is widely known in Garden Club of Ohio groups.

Recently she was the featured speaker in Dayton when she addressed a flower arranging audience on "Abstract Design."

Winner in this tournament where roses are the only flowers used will receive the \$5,000 perpetual challenge trophy which, I believe, she keeps for one year.

Te three top contestants are awarded pieces of Sterling silver and all contestants receive ster-

ground material to the cardboard niche.

Alice was trying to locate some floral clay. I could not help her out.

BUT I determined when I'm too old to exhibit I'm going to be on hand at flower shows with a basket containing all the needs of an arranger. So when some distraught soul needs some last minute floral clay or wire or Scotch tape I'll be there to help her out.

We were tickled to pieces with the class of mobiles at the flower exhibit. It marks a show as "up and coming" when such a modern innovation is included.

One spectator said that a mobile is not a mobile unless it has at least three units.

Kenny Hannan made the enchanting little harp of gold which graced the tea table at the flower show.

Tea tables should first be decorated. And if the theme of the show can be carried out in the bargain you've really hit the jackpot. The show had a musical theme, "Concert in the Park".

ling silver lapel flower containers, plus all expenses incurred.

Always an attraction, the tournament is scheduled for June 21 of this year.

You can take the girl out of the country but you can't take the country out of the girl. Miss Helen Hoffman who had lived on E. Union St. for over a year admitted that she is homesick for their place in Salt Creek Twp.

LORING Hoffman said many years ago — "There ought to be a pond in that pasture between your house and the woods. "He saw our pond for the first time the other day and it was right in the spot where he first visualized it.

Miss Hoffman has moved many of her plants to town and they are doing quite well.

Mrs. Roscoe Warren has moved her two angel wing begonias out on the porch. They are fine, well staked specimens. Angel wing begonias are pretty lumpy and need good staking.

Mrs. Ned Harden has a collection of wild flowers in her garden. She does not have a pink lady slipper because she's never seen more than one in any one spot.

Count yourself lucky if you have an old fashioned yellow rose. Barney Bower at Thatcher has a beautiful specimen. The Wenrich Stuckeys have another.

These lovely old fashioned favorites are not as popular as they once were. The roses shatter badly for one thing.

## Rose Book Available To Membership

"In the next 10 years 'Peace' will begin to take a back seat when it comes to flower size and a very inferior position when it comes to brilliantly colored 'big' roses," says Dennison Morey of Pleasanton, California, in this Rose "Forecast For The 60's" in the American Rose Annual.

Other forecasters in the 1961 Annual rose book include the nation's leading woman rose hybridizer, Mrs. Gladys Fisher, who mothered the hybrid tea rose 'Sterling Silver'; Dr. Walter E. Lammerts, "daddy" to the first grandiflora rose 'Queen Elizabeth'; E. S. Boerner, "papa floribunda"; Gordon J. von Abrams "big brother" to the hybrid tea 'Pink Favorite' and Ralph S. Moore famed for tiny miniature roses.

The 1961 American Rose Annual, sharp in a black cover, gold lettering and alive with the red rose "Americana" includes 22 articles by leading amateur and professional rose experts. The book is available only through membership in the American Rose Society, Columbus.

## Solon Urges No State Finger in College Fuss

COLUMBUS, Ohio (AP) — The dispute on the campus of Bowling Green State University should be ended soon but the state government should not in any way interfere, State Rep. Charles F. Kurfess, R-Wood, said Tuesday night.

Earlier reports had indicated that Kurfess, a Bowling Green alumnus, might seek that the legislature try to settle the unrest on the Wood County campus.

## Girl Scouts To Have Own Rose Garden

A special rose garden for the Girl Scouts of the U.S.A. will be opened to the public at Newark, N.Y. June 17, at the opening of the 30th annual Rose Festival in the 17-acre Jackson-Perkins rose garden.

Featuring the new Girl Scout floribunda rose, the garden will be dedicated at a special Girl Scout ceremony attended by officials of the Girl Scout movement, a choral group of 175 and 65 flag bearers.

Designed by Henry Aul, landscape architect and assistant garden editor of the New York Herald Tribune, the garden will show the Girl Scout trefoil outlined in a circular bed of dwarf yellow sedum and green vinca minor. (Traditional Girl Scout colors are yellow and green).

Throughout the garden will be beds of the Girl Scout floribunda rose in various settings that might be used in home garden plantings.

AT 11 A. M. on the opening day a color guard along with standard bearers carrying the flags of the 52 nations in which there are Girl Scouts or Girl Guides, will participate in the dedication ceremony.

Charles H. Perkins, president of the Jackson and Perkins Company, Mr. Aul and E. S. Boerner, hybridizer of the Girl Scout floribunda rose, will be present at the opening session.

# Legislature May Tighten College Rules

(Continued from Page 1)

Both the Senate and House defeated one bill during Wednesday's floor sessions.

In a 13-22 vote, senators defeated a bill that would have allowed any competent adult Ohioan to give all or part of his body, on death, to a medical or educational institution. Some funeral directors objected to the measure, which would have prevented embalming for up to 36 hours if the institution accepted the donation.

The 65-62 vote in the House was five short of passing a Senate-approved bill exempting nonprofit hospitals from liability for ordinary negligence of employees. It still would have allowed individual employees to be sued, however.

As expected, the Senate approved, 34-1, a bill aimed at spot cards on sports events, providing a \$500-\$1,000 fine and 1-3 years in prison for manufacturers or sellers. First-offense buyers could be fined up to \$500 or jailed up to six months. Subsequent offenses would mean the same penalties as for makers and sellers.

Headed for what appears to be a receptive Senate is a bill passed Wednesday by the House, 124-3, granting sales tax exemption in purchase of prescription medicines, wheel chairs, artificial limbs and the like.

A person deliberately misusing a credit card to fraudulently acquire goods or services worth more than \$60 could face up to seven years in prison under terms of a bill okayed 118-0 by the House. The Senate already had approved the measure, which sets a \$300 fine and 90 days in jail as top penalties where less than \$60 is involved.

The Senate wound up legislative action by lopsided votes, on bills approved by the House which would:

Cut the workweek from 44 or more hours to 40 hours for guards at Ohio's adult and juvenile prisons.

Permit adjacent counties, or a single county, to form a regional airport authority. There is considerable interest in southwest Ohio in a regional airport.

Increase the top fine for being a highway litterbug, now \$50, to \$300, with a \$25 minimum.

The Senate also adopted a joint resolution urging Congress to enact legislation imposing a tariff on importation of clay products. Sponsors said Ohio's clay products industry has been hard-hit in many cases by lower-priced imported clay products produced by low-salaried foreign workers.

## DiSalle Assails Budget Cut to Ohio Colleges

COLUMBUS, Ohio (AP)—Ohio's six state supported universities are in for cuts in budget allowances approved by the Ohio House for the next two years.

State Sen. William H. Deddens, R - Cincinnati, senate finance chairman, made this disclosure Wednesday after Gov. Michael V. DiSalle said he heard reports the Senate committee plans to make six per cent cuts.

DiSalle assailed any proposed reductions in allowances for the six schools as "a step backwards."

"We haven't cut them one penny as yet," Deddens said. "We are going to cut them but I don't know what the committee will do about the amount. don't say we will cut them six per cent but they will be cut."

In support of the proposal cuts, Deddens asked: "do you think taxpayers should pay for the operation of alumni associations?"

"Do you think the taxpayers should pay for two-engineered airplanes for those schools? Every one but Central State College has one."

The senator also cited that square dancing, games and rhythm are taught, and credit given, at branch universities in Dayton and Norwood. He said he had heard billiards is taught at Ohio State.

### Erie Ordnance Depot Patrol Boat Sinks

PORT CLINTON, Ohio (AP)—A 45-foot Erie Ordnance Depot patrol boat sank suddenly in Lake Erie Wednesday. Two men who had been in the boat — Millard Lange, 64, of Lacarne and Ruben Smith, 57, of Port Clinton—took a life raft and were picked up some time later.

Authorities at the depot were investigating to determine why the boat suddenly began shipping water and sank while on routine patrol off Locust Point, west of Port Clinton.

## Weekly Food Review

By THE ASSOCIATED PRESS

Roast beef and pork dominate supermarket advertisements again this week.

Poultry prices are so low production is turning downward. This eventually will mean smaller supply and higher prices.

Pork bargains this week are mostly smoked hams, although rib end pork loins and sausage are featured in the Midwest and smoked picnic hams in the Northeast.

In beef it's mostly sirloin, or porterhouse, steaks and rib roast.

Fresh fruits and vegetables are seasonally plentiful now, although produce men report the weather has been so hot in some sections that the condition of highly perishable items such as asparagus, lettuce and strawberries, has been affected.

Allowing for a careful shopper check of condition, all are on this week's best buy list. Other vegetables with this rating are collards, green onions, radishes, rhubarb, spinach and parsley. Good buys include beets, cabbage, carrots, celery, corn, mushrooms, onions, potatoes and tomatoes.

Joining strawberries as outstanding fruit buys are oranges, grapefruit, bananas and mangoes. Good buys include watermelons, blueberries, cantaloups, honeydew melons, peaches and lemons.

Deschler Poultry Plant Destroyed by Blaze

NAPOLEON, Ohio (AP) — Fire destroyed one of the state's largest poultry and egg processing plants Wednesday. Loss at the Koppenhof Bros. plant at Deschler was about \$250,000.

All of the 50 or so workers in the 185-by-125-foot structure when the fire broke out escaped unhurt. Firemen said defective wiring apparently started the fire. The plant processed thousands of turkeys and 3,000-4,000 cases of eggs each week.

# Dade Twirls No-Hit LL Tilt As Batters Pace Loop Games

A no-hit 16-strikeout pitching feat by Coca-Cola's Steve Dade appeared in sharp contrast yesterday to a generally free-swinging night of Little League scraps.

In all, 55 runs crossed plates on diamonds throughout the city in a trio of LL battles. Coca-Cola backed Dade with enough runs for an easy 10-1 win over The Herald.

Third National buried Second National under a 25-5 bombardment in an LL minor tilt and Tarlton turned on the power to thump Blue Ribbon Dairy, 12-2, in another minor loop joust.

# Grant Gets Nod in Third Yankee Tilt

CLEVELAND (AP)—Jim Grant lays his unblemished record on the line again tonight as the Cleveland Indians square off in the rubber game of the series against the New York Yankees.

The Mudcat, who has won seven without a loss, hasn't faced the Yankees this year and it could be his sternest test. New York also plans to start an unbeaten pitcher, Ralph Terry (4-0).

Cleveland lost to the Yankees 11-5 Wednesday night. Gary Bell suffered his sixth setback in 10 decisions.

The Indians trailed 2-1 until the sixth inning when the Yankees made it a 5-2 bulge. Little Bobby Richardson put the game virtually out of reach with a three-run homer in the seventh—his first of the year.

The loss dropped the Indians into a tie with Detroit for the American League lead. New York is only a game back.

Bell was hooked up in a duel with Whitey Ford for five innings. The two runs he allowed were produced by Roger Maris' 22nd home run of the year in the fourth inning.

But the Yankees got to Bell for three runs in the sixth, and any hopes Cleveland had of getting back into it were dashed when the Yanks got four in the seventh off Johnny Antonelli. In their own seventh the Tribe narrowed the Yankees' 9-2 lead to 9-5.

Chuck Essegian unloaded his fourth homer to cap the too-little-too-late uprising.

# 2 Yankees Left In British Amateur

TURNBERRY, Scotland (AP)—Ralph Morrow, gangling Oklahoman with a yen to turn professional, went into the fourth round of the British Amateur Golf Tournament today with the way wide open to the semifinals.

"Both the seeds in my quarter have been knocked out," said the tall, relaxed Morrow who hits the ball just about as far as anybody in the field.

"I reckon, with a bit of luck, I can get at least to the semifinals. If I make it, then I'll probably come up against Joe Carr. Then it will be real tough."

Carr is the 39-year-old Irishman who has won the title three times and is defending the crown this year.

Morrow, from Oklahoma City, and Henry Timbrook, 40-year-old financier from Los Angeles, are the only American survivors in the last 32. Twenty-six Americans were entered when the championship opened on Monday.

There has never been a disqualification, or even a foul claim against the winner, in 85 runnings of the Preakness at Pimlico.

The Coke boys gave Dade all the help he needed in the first inning, scoring six markers on a double by Roy Sark and singles by Mike Martindill and Dade himself. Three Herald fielding miscues helped things along.

**JOE WINNER** the losing hurler registered the only Herald tally in the second when he walked. He came home as Gibbs was striking out to end the frame. Dade fanned the side in four of the six stanzas.

The bottlers wrapped single scores around a pair of fourth-inning tallies to finish their win.

Rick Congrove got two Coke hits, as did Dade. Tom Wright connected for one safety along with Rick Sims, Sark, Jim Barnes, Martindill and Dan Pritchard. Sark's opening-frame double was the only extra-base job of the game.

Third National cleared the bases time and again in their uneven contest with the Second Bank squad.

Second moundman Andy Blanton retired the side on strikeouts in the first inning, but Third still put four runs across on a double by Carl Hoffman and a one-bagger by Dale Shauck.

There was little doubt about the game's outcome after the second frame. In that inning Third National dispatched 15 men to bat and 11 of them came home on three hits.

**THE winners** picked up a trio in the third, two in the fifth and blasted out five in the fifth frame to complete their fireworks. In all they counted 13 hits.

Second National was held scoreless by Chuck Nunemaker until the fourth inning when they burst through for two runs on Harold Strawser's single.

They added a trio of tallies in the last frame on a triple by Steve Cassidy, a double by Lester Thimmes and a single by Larry Downing.

**Mike Elick** was Tarlton's big man last night, driving in four runs and pitching his team to victory. Heeter garnered two of Blue Ribbon's four blows, a single and double.

The teams were tied 2-all at the end of the first inning. Tarlton put the scrap on ice in the second, however, with a five-run uprising on singles by Dean, Elick, Fraunfelder and Justice.

Collins slugged a single to plate Dresbach with the winners eighth run in the third. They added two more in the fourth and another pair in the fifth inning.

The Dairy outfit, after its initial outburst, was unable to activate another scoring threat in the Southland playground contest. Elick fanned 14 and struck out the side in the first, second and sixth innings. Zimmerman whiffed six in his losing try.

# State Department Plans To Lease Hargus Park Shop

The Division of Parks of the Ohio Department of Natural Resources has opened bidding for a three-year-five month lease on a refreshment and marine concession stand at Hargus Creek State Park.

All bids must be sealed and received by the Division office, 1500 Dublin Rd. Columbus 12, before 2 p. m. July 14.

The state will furnish a frame building and an assigned area of land. The lease will be required to provide all equipment, merchandise and other items connected in operating the stand.

The successful bidder must also furnish a minimum of 15 boats and 60 life preservers. The state reserves the right to establish season and time of operation for the stand.

# Sam Snead Set To Try Again

It's His 21st Shot At U.S. Open Title

BIRMINGHAM, Mich. (AP) — What witch's brew does Oakland Hills' boiling cauldron hold for Sam Snead, the sentimental favorite in the 61st U.S. Open Golf Tournament which opens today? Snead, 49, among an eager field of 150, was making his 21st U.S. Open start in quest of his first triumph in a heartbreak trail of near-misses since his first try 24 years ago, also over the same treacherous Oakland Hills Course.

Snead has to beat defending champion Arnold Palmer, leading PGA money-winner Gary Player, four-time Open champion Ben Hogan—to mention a few—but most of all he has to whip the Open whammy against himself.

The irrepressible Snead, at the moment shooting some of the finest golf of his picturesque career disclaimed any jitters entering the 72-hole medal play event concluding with a double 18-hole round Saturday.

Palmer was rated a 5-1 favorite to win. South Africa's Gary Player, who dethroned Palmer as Master's champ was second betting choice at 6-1.

"You all don't think I'm going to win it," grinned Snead. "I don't think so either. So if things go right, I'll surprise everybody, including myself."

"I'll take four 71's and go fishing." That meant Snead figured a 284 would take the Open title won last year by Palmer with 280 at Denver's Cherry Hills course. Par for Oakland Hills is 35-35—70, a four-round total of 280.

Palmer's only pre-battle statement was: "Let's go—at least 10 players can win this and I think 280 will take it."

Snead has won the last three tourneys he has played—the Las Vegas Tournament of Champions, the Sam Snead Festival and the International Canada Cup. Only once in his last 12 rounds has Slammin Sammy been over 70.

on Route 124 between Jackson and Wellston.

More than 110 players, representing nine clubs, will tee off for the event. The playoff started in Athens, on the Ohio University course, in 1924. Chillicothe hosted the competition in 1960.

Marietta and Gallipolis are defending team co-champions. Howard Baker Saunders of Gallipolis is the returning individual titleholder, an honor he has copped six times before.

**THE SEOGA** tournament is slated to end Sunday afternoon with driving and putting contests as the final events. Several improvements, including enlarged clubhouse lounges and additional parking facilities have been added to the Jackson club for the tourney.

Teams representing Athens, Cambridge, Chillicothe, Gallipolis, Logan (Hocking Hills), Lancaster and Marietta, as well as the local outfit and host Jackson are scheduled to compete.

# Pitched Ball Fatal To Little Leaguer

COCOA, Fla. (AP)—A Little League baseball player died after being struck in the neck by a pitched ball.

The accident occurred in the third inning of a game Wednesday night while Burnit Estes, 12, was catching for the Moose Lodge team. The ball bounced off home plate and hit him in the neck between the chest protector and face mask.

The boy fielded the ball and tossed it back to the pitcher, then collapsed. Artificial respiration failed to revive him.

A doctor reported the ball apparently ruptured a large artery.

## Two Jets Land All-Star Berths

MONTREAL (AP)—Two Columbus Jets landed places on the International League All-Star baseball team picked by the IL managers to meet the Cleveland Indians in Buffalo, N.Y., June 26.

Johnny Lipon of the Toronto Maple Leafs, named All-Star manager earlier, is to select 10 or more players to round out the team composed of:

Second baseman Bobby Johnson and outfielder Barry Shetrone of Rochester; third baseman Felix Torres and outfielder Tony Curry of Buffalo; left-handed pitcher Bob Veale and catcher Don Leppert of Columbus; shortstop Billy Moran of Toronto; outfielder Jim Pendleton of Jersey City and Charleston rookies Ray Washburn, right-handed pitched, and Fred Whitfield, first base.

The Detroit Tigers, with Frank Lary becoming the first pitcher to win 10 in the majors this season, beat Boston 4-2 Wednesday and gained a tie for first place with Cleveland in the American League race when the New York Yankees beat the Indians 11-5.

Whitey Ford, with relief help by Luis Arroyo, also won his 10th for the third place Yankees, who are one game behind.

Washington beat Baltimore 5-1, Kansas City tagged Minnesota 9-2 and the Chicago White Sox ran up a six-game streak with a 4-1 and 9-8 two-night doubleheader sweep over the Los Angeles Angels.

A two-run triple by Billy Bruton wrapped it up for the Tigers as they scored three in the fourth inning against the Red Sox and loser Billy Muffett (2-6). Lary (10-3), had a three-hit shutout until the eighth, when Boston scored on four singles and a sacrifice fly by Frank Malzone.

Roger Maris and Bobby Richardson drove in six runs between them for the Yankees. Maris brought them from behind with a two-run homer in the fourth off loser Gary Bell (4-6), and Richardson capped a four-run seventh inning with a three-run homer off reliever Johnny Antonelli.

Ford gave up eight hits, one a solo homer by Chuck Essegian. Arroyo then mopped up with two innings of hitless relief.

A five-run second inning, triggered by Gene Green's two-run homer, did it for the Senators as Dick Donovan (3-5) won his third in a row with a six-hitter. Steve Barber (7-5) was the loser.

Kansas City was shut out on two hits for 7 1-3 innings by Camilo Pascual, but broke loose for

eight runs in the eighth. Jerry Walker (3-3) won it in relief. Pascual was the loser.

Ray Herbert and Don Larsen, two right-handers acquired from Kansas City Saturday, wrapped up the White Sox's sweep. Herbert (4-6), won the opener with a three-hitter.

Johnny James (0-2) was the loser.

Larsen then saved the second game for Frank Baumann (5-6) after the Angels broke loose for five runs in the eighth inning and another in the ninth on Steve Binko's homer. The Sox tagged loser Rom Moeller (2-5) for seven runs in the first inning.

The Los Angeles Dodgers are back on top in the National League race, gaining a half-game edge by beating the Chicago Cubs 7-0 Wednesday night. Pittsburgh dropped Cincinnati 5-4, and San Francisco tied the Reds for second place with an 11-2 job on Milwaukee.

The St. Louis-Philadelphia game was rained out.

The Dodgers knocked off the Cubs behind the five-hit pitching of Don Drysdale (5-3). It was his first shutout of the season. Backed by four double plays, Drysdale didn't allow a runner past first. He walked but two and struck out seven.

Drysdale also belted a homer. So did Tommy Davis, who drove in three runs. He brought in one in the first with a sacrifice fly, and the Dodgers then chased loser Don Cardwell (5-3) with three runs in the second, two unearned.

Dick Stuart did it for the Pirates. He drove in four runs with a single, triple and homer, beating the Reds with a two-run triple in the ninth off losing reliever Jim Brosnan (2-2). The

Reds gained 3-2 and 4-3 leads against Bob Friend and Elroy Face before Bobby Shantz (3-1) took the decision with one hitless inning of relief.

## Team Runs 45-0 Behind, But Never Got To Bat

SEDALIA, Mo. (AP) — The Little League game was called on account of darkness with the Adco's leading Sedalia Ice 45-0.

One-sided? Yes, but the Ice team didn't get to bat. It ended after the first inning of play.

## Bison Hitters Shake Slump

By THE ASSOCIATED PRESS  
Felix Torres and Tony Curry, sluggers for the new Buffalo Bisons of the International League, shook off lengthy slumps Wednesday night and slammed five hits between them including a home run apiece to spark a 10-4 victory over Jersey City.

Rochester snapped a four-game losing streak when it won from Columbus, 6-5. But the Jets came back to win the doubleheader nightcap, 4-1, cutting Charleston's first place margin to two games as the Marlins lost to Toronto, 7-6. Richmond beat Syracuse 6-2.

Rochester won the opener with two out in the seventh and last inning when Luke Easter singled and Ray Barker homered. Reliever Diomedes Olivo, a winner Tuesday night, took the loss. Al Jackson's six-hitter gained the Jets the split.

Two home runs, the second a grand slammer by Earl Hersh, accounted for all Toronto runs as the Leafs edged the Marlins. Jake Gibbs, the Yankees' \$100,000 bonus player, was held hitless for the first time in nine games for Richmond.

## Bait Salesman Is Sure You Can Trust Anglers

LOUISVILLE, Ky. (AP)—A. C. Gandy sells fishing worms on the honor system.

He leaves boxes of worms on an outdoor table for the customers to serve themselves day or night and says the money is never short. Sometimes, he adds, it comes out a little extra.

"I'd just as soon do business with fishermen as anybody," he explained.

"You can trust every one of them—when it comes to bait."

## Spotlight Is Shared On Scioto Downs Card

COLUMBUS, Ohio (AP)—Barney Blackstone, a 5-year-old chestnut stallion, and Durango Kid, a 6-year-old gelding, shared the spotlight Wednesday night at Scioto Downs.

Barney, owned by George Curry of Columbus, clocked a 2:04 4-5 mile to win the \$1,000 Class B pace. The Kid, owned by Roland Bookmyer of Sycamore, took the night's trotting feature, upsetting favorite Vega Wick in 2:05 3-5.

Barney Blackstone paid \$7, Durango Kid \$11.60.

Clyde King, former pitcher, is managing the Rochester Red Wings who this season are affiliated with the Baltimore Orioles.

Views on TV-Radio

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP)—One thing you can say for Perry Como's summer replacement: It sure is a change from the usual Wednesday night variety hour on NBC.

Wednesday night's premier program of "Mystery Theater" was in fact, a neat and meticulous demonstration of a clever and comparatively non-violent way to rob a bank.

Perry's substitutes are British films edited down to an hour's length.

Judging from the first film sample, this promises to be a rather diverting series. And although most English movies we see on TV look as though they were made on a dark night in an unlighted cellar, this one was quite easy to follow without eye-strain.

The syndicated late-evening "PM" series starring Mike Wallace, designed to provide some fresh competition for late movies and Jack Paar Show, got off to a rather limping start this week.

ABC, reported to be interested in picking up the series for its network come fall, said they had turned the taped series down.

After weeks of thought, CBS has finally come up with a title for the Gertrude Berg comedy series which will make its debut this fall: "Mrs. G. Goes to College." The series started out as "Mother Was a Freshman," but was changed to "The Freshman," but lately has been identified by the name which the public will undoubtedly use anyway, The Gertrude Berg Show.

NBC will run a repeat broadcast of "The Accomplice," an hour long dramatic show next Monday night (10-11), mostly because of its timely theme. It was based on the capture of Adolf Eichmann and was shown originally last August as one of the "Moment of Fear" summer replacement shows.

Recommended tonight: CBS reports, 10-11 (Eastern Standard Time) — repeat of the excellent documentary, "The Year of the Polaris"; Close-Up, ABC, 10:30-11—"Our Durable Diplomats," a study of two young couples in the government's foreign service.

WASHINGTON (AP)—President Kennedy is getting a combination of old and new treatments for his back ailment—hot pads and ultra sound.

The ultra sound—using high frequency sound waves—is a method for applying heat to deep-seated tissues.

It is the latest treatment in a regime including rest and swimming prescribed by White House physician Dr. Janet Travell who reported that Kennedy "continues to improve." He is still using crutches.

Decathlon is the only horse to win the Oceavor Handicap at Monmouth twice. He did it in 1956 and repeated in 1957.

## Canal Songs To Highlight OSU Course

One of Ohio's outstanding authorities on the history of the songs and ballads of the Ohio Erie Canal will appear on the Homemakers' Short Course program at Ohio State University June 21, according to Mrs. Kileen E. Wright, local home economics agent.

She is Miss Cloe Thomas, faculty member of the School of Music, The Ohio State University. She will present "Scenes and Songs of the Ohio Erie Canal" at the Short Course banquet in the West Ballroom of the Ohio Union.

Miss Thomas will use old pictures to illustrate the settings surrounding some of the songs and ballads. Two music students will sing songs of this historical period.

The banquet is one of the highlights of the Sixth Annual Homemakers' Short Course June 20-22. The course offers homemakers an opportunity to become up-to-date in the profession of homemaking, says Mrs. Lois Whitfield, state leader of Home Economics Extension, The Ohio State University.

Mrs. Wright said any Ohio homemaker may register for the Short Course. Those attending will enroll in one home economics class and one special interest class of their choosing.

Further information may be obtained by contacting Mrs. Wright at the Extension office, GR 4-5828, or by writing to Mrs. Whitfield, at 2120 Fyffe Road, Columbus 10.

## Ashville News Report

By Mrs. Arthur Deal Jr.  
Phone YU 3-4117

The Ashville Methodist Fellowship Class and families will hold their June picnic at Scioto Trails Park, south of Chillicothe, Sunday afternoon and evening. The picnic supper will be served at 5:30 p. m. Each family is asked to bring a well filled basket.

Mr. and Mrs. C. E. Mahaffey are visiting this week with their son, Dr. Howard Mahaffey and family of Madison, Wis., and will also attend the High School Commencement exercise of their grandson, William Howard.

Jack Messick is a patient in Mt. Carmel Hospital, Columbus, where he underwent surgery Tuesday morning. He is in room 830.

The Bastian Funeral Home made the following ambulance runs this past week: June 7—took Walter Kerschner and Becky Meyers, Route 1, Orient and Sandy Palmer, Route 2, Ashville, to Berger Hospital following an auto accident in South Bloomfield; June 9—returned Laura Compton, Route 1, Lockbourne, to her home; June 10—returned Mrs. Custer, mother of Marvin Custer, to her son's home in Ashville; and June 12—took Charles (Chod) Pettibone to Grant Hospital.

MRS. FRANCES Barth, Scioto St., Ashville, is recovering in Mercy Hospital after undergoing surgery Tuesday.

A reminder is made to all students who have pre-registered for the Red Cross Swimming lessons at the Ashville Pool. The intermediate class will begin at 9 a. m., the beginners class at 10 a. m., and the swimmers class at 11 a. m.

Kathy Stout, daughter of Mr. and Mrs. Stanley Stout, underwent surgery Monday morning in Riverside Methodist Hospital, Columbus. She is expected to return

home the latter part of the week.

A combined Children's Day Program and Vacation Bible School Program will be held Friday in the Evangelical United Brethren Church at 8 p. m. Preceding the program there will be a pot-luck supper for all families in the church basement starting at 6 p. m.

Miss Susie Sabine, daughter of Mr. and Mrs. John Sabine of Ashville underwent an emergency appendectomy Tuesday in Riverside Hospital Columbus.

Mr. and Mrs. Russell Small of Michigan spent a few days with Mrs. Small's mother, Mrs. Alice Purcell of Ashville.

## Kennedy Takes Surprise Trip on Potomac

WASHINGTON (AP) — A surprise cruise on the Potomac took President Kennedy out of the White House for the first time since Monday, breaking his routine of work and treatment of his injured back.

Kennedy will take some more time off tonight to welcome his wife back from Europe.

Without advance word, Kennedy slipped out of the White House at sunset Wednesday and motored to the Navy gun factory where he boarded the Patrick J., one of the boats used by the first family.

Kennedy and his companions—his sister and brother-in-law, Mr.

and Mrs. Stephen Smith; Harvard classmate Rep. Robert McDonald, D-Mass., and New York advertising man R. LeMoine Billings—had dinner aboard. After a leisurely cruise of about 2 hours and 20 minutes they docked in Washington at 10:05 p.m.

He has been using crutches but White House news secretary Pierre Salinger, who disclosed the boat ride, said Kennedy evidently had no trouble boarding the Patrick J.

The President will see his wife for the first time tonight since he left London June 5 at the end of his Paris-Vienna-London conferences. She went on to Greece on a sightseeing trip.

## How Weather Looks Today

COLUMBUS, Ohio (AP) — Official Weather Bureau summary of Ohio's weather outlook:

Mostly clear skies prevailed over the northern section during the night, but cloudiness continued in the south.

Slight rain was reported along the Ohio River. By daybreak skies were cloudy again over the entire state, and light rain persisted in the extreme south.

A cool air mass from Canada pushed into Ohio during the night, dropping temperatures into the upper 40s and lower 50s. This morning, Toledo and Youngstown had 48, Cleveland and Columbus 52, Cincinnati 51.

The rain is forecast to end in the southern section this morning, but cloudy, cool conditions will continue today.

A large high pressure area centered over Minnesota this morning will move southeastward, giving clearing skies and a little cooler temperatures tonight.

Fair, dry weather and somewhat higher temperatures are predicted for Friday.

Tomatoes are the number one truck crop in the United States. Value of the tomato harvest in 1960 was \$250 million, nearly double that of the second-place crop, lettuce.

## Vacationing Ohioan Exposed to Meningitis

MOUNT VERNON, Ohio (AP) — A vacationing Mount Vernon family of five was being sought in Kentucky Wednesday night because one of them has been exposed to a form of spinal meningitis. The Ohio Highway Patrol notified Kentucky authorities to warn the Frank Ridenours that a friend of Mrs. Ridenour has the disease.

Doctors said the ailment is not considered contagious, but they advised all exposed to check with a physician.
